

Hi-Lake Interchange

Project History

- 2016 and 2019 studies of the interchange identified a tight diamond as the preferred reconfiguration of the interchange
- In 2019 MnDOT, Hennepin County, and Minneapolis agreed to partner on a reconstruction of the interchange
- Hennepin County received regional solicitation funding for the project
- Metro Transit B-Line planned for Hi-Lake area and are another project partner

Project Goals

Changes planned for Hi-Lake are intended to:

Increase safety for all forms of transportation

Improve connectivity and access for people across neighborhoods

Support climate-friendly transportation

Project Schedule

- Start of Design Work: Late 2020
- Layout: August 2022
- Final Plans: October 2023
- Letting: February 2024
- Construction: 2024 construction year
